

CLAIMED TO HAVE KILLED REYNARD

Three Hours Were Spent Digging for Him Without Results.

AN IMPORTANT QUESTION

Serious Difference As to What Judges Shall Make the Award.

(Special from a Staff Correspondent.)
UPPERVILLE, VA., November 10.—The Middlesex hounds tried a new country to-day, when they were cast into covers in the Aldie end of Loudoun county. After two hours' sport in drawing these covers, Cotsworth, huntsman for Middlesex, claimed to have held a fox on Triplett hill. Terriers from the Middlesex kennels were brought to the den and rails and natural means were used in an endeavor to unearth the fox. After working for three hours the attempt was given up, and the judges will decide later whether or not hounds ran their quarry to earth.

Important Question.
A question has arisen, which is of first importance to those interested in the outcome of the Grafton-Middlesex match. During the run so far, the absence by reason of illness of the three judges appointed by Mr. Smith and Mr. Higginson, five other judges have acted as substitutes, and since Mr. Maddux has been called away, Mr. Westmoreland Davis has been appointed to act in his place. Mr. Higginson now raises the point that the final decision as to who wins the purse of \$2,500 and the Townsend cup, valued at \$250, rest alone with the original three judges, who must vote on the award.

He claims that if Mr. Maddux is unable to return, Judges Charles McEachern, of Montreal, and Mr. Hallam L. Movius, of Buffalo, must render a decision, or if one of these leaves before the end of the trials, then the two remaining must name the winner. Mr. Smith, on the other hand, contends that the substitute judges shall all vote in making the awards.

How this matter will be decided will probably be made known when the judges meet on Sunday afternoon at Upperville.

Frost and Ice.

Hounds met at Middleburg in front of the Middlesex headquarters at 7 o'clock, when a field of twenty-five riders greeted the master and followed the pack in charge of Cotsworth out of the village. The weather was cold and damp, for there had been a frost during the night, and upon the streams there was a thin coat of ice. The scene was good and the morning almost ideal for fox hunting. Only five ladies graced the occasion—Mrs. Westmoreland Davis, of Leesburg; Mrs. T. P. Pease, of Boston; Mrs. Grafton Abbott, of Boston; Mrs. Jack Henderson, of Millwood, and Miss Neville Lemmon, of Baltimore, Md.

Along the road a dozen vehicles filled with fox-hunting enthusiasts followed the pack and kept within close touch with the run.

Last Into Cover.

Hounds were carried beyond Dover and cast into cover about a mile west of Aldie. Several covers were drawn before a trail was struck, when hounds went away slowly with stunts up, giving good music. The trail was a cold one, but the pack was slowly but surely drawing the hillsides without success, when the hounds far back of the trail that had been abandoned commenced to speak in unmistakable tones. The pack was gathered back with horn and voice, Cotsworth and his whips to speak in unmistakable tones. The pack was gathered back with horn and voice, Cotsworth and his whips to speak in unmistakable tones.

In His Hole.

The pack swarmed around the entrance within a minute. All the riders were up and Mr. Higginson dispatched his second whip, Will Edwards, to Middleburg, five miles away for his two terriers, to draw the fox. Terriers and servants worked hard for three hours, but failed to reach Reynard and hounds were finally sent home to the kennels at Middleburg. To-morrow Grafton hounds will meet at 6:30 o'clock near the "Pot House." It is thought that Grafton hounds will be drawn. The match will in all probability end on Thursday of next week, when each pack will have had its last run.

SEVERE CENSURE OF HEALTH BOARD

(Continued From First Page.)

of the infection for weeks. Is it necessary to point out the fact that, if the hand of the health officer had not been forced on July 14th and 15th, further concealment would have followed? Is it necessary to repeat the fact that, if the health officer had not been forced on July 14th and 15th, further concealment would have followed? Is it necessary to repeat the fact that, if the health officer had not been forced on July 14th and 15th, further concealment would have followed?

"The introduction of yellow fever into Savannah, Mobile, and New Orleans is not a local matter. It affects every State in the South. No one doubts this. No State or municipal quarantine has lack of funds; frequent change

HABIT-FORMING MEDICINES AND DRUGS.

Whatever may be the fact as to many of the so-called patent medicines containing injurious ingredients as broadly published in some journals of news or of intelligence, this publicity has certainly been of great benefit in arousing needed attention to this subject. It has, in a considerable measure, resulted in the exposure of some of the most notorious and medicines as may be fairly suspected of containing the injurious ingredients complained of. Recognizing this fact some time ago, Dr. Pierce, of Buffalo, N. Y., took time by the forelock as it were, and published broadcast all the ingredients of which his popular medicines are composed. Thus he has completely forestalled all haphazard and all opposition that might otherwise be urged against his medicines, because they are now of known composition. Furthermore, from the formula printed on every bottle wrapper, it will be seen that these medicines contain no alcohol or other habit-forming drugs. Neither do they contain any narcotics or injurious ingredients. Their ingredients being purely vegetable, and of the most reliable and medicinal plants found growing in the depths of our American forests and of well recognized curative virtues.

Instead of alcohol, which even in small portions long continued use of such substances of disease, becomes highly objectionable from its tendency to produce a craving for stimulants. Dr. Pierce employs chemically pure, triple refined glycerine, which, of itself, is a valuable ingredient in many cases of chronic disease, being a superior demulcent, anti-septic, anti-ferment and supporting nutritive. It enhances the curative action of the Golden Medical Discovery, which is a bark and bloodroot, contained in "Golden Medical Discovery." In all bronchial, throat and lung affections attended with severe coughs, as will be seen from the writings of the eminent Dr. Gray, of New York; Bartholow, of Jefferson Medical College, Philadelphia; Scudder, of Cincinnati; Ellingwood, of Chicago; Hale, of Chicago; and others, who stand high in their several schools of practice. The foregoing agents are the very best ingredients that Dr. Pierce could have chosen to make up his famous "Discovery" for the cure of all bronchial, throat and lung affections, but also of chronic catarrh in all its various forms in whatever part of the system located.

By reading the writings of these eminent medical men contained in the little booklet recently compiled by Dr. R. V. Pierce, of Buffalo, N. Y., which will be sent free, on request by postal card or letter addressed to him, it will be seen that he will find that all the several native medicinal roots entering into the "Golden Medical Discovery," as also into Dr. Pierce's Favorite Prescription, for women's ailments, are of the highest quality, and are very highly recommended and praised as cures for diseases for which Dr. Pierce advises these famous medicines of his preparation.

Dr. Ellingwood says of Golden Seal root, which is an important ingredient in both "Favorite Prescription" and "Golden Medical Discovery," "It is an important remedy in disorders of the urinary system, especially in catarrh of the bladder and general enfeeblement. It is useful." Prof. Scudder, late of Cincinnati, says of Golden Seal root, "It is a valuable in uterine hemorrhage (bleeding, hemorrhage) (flooding) and congestive dysmenorrhea (painful menstruation)." Dr. Bartholow says of Golden Seal root, another ingredient of "Favorite Prescription," "It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little Pellet is a gentle laxative. Two or three mild cathartics. All dealers in medicines sell them."

A good medical book, written in plain English, and free from technical terms is a valuable work for frequent consultation. Such a work is Dr. Pierce's Common Sense Medical Advice. It is a book of 1008 pages, profusely illustrated. It is given away free, although formerly sold in cloth binding for \$1.50. Send 21 cents in one-cent stamps, to pay for cost of mailing only for paper-covered copy, addressing Dr. R. V. Pierce, Buffalo, N. Y., or 31 cents for an elegantly cloth-bound copy.

Dr. Ellingwood says of Golden Seal root, another ingredient of "Favorite Prescription," "It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little Pellet is a gentle laxative. Two or three mild cathartics. All dealers in medicines sell them."

A second resolution urges upon the States of the South, that they should take the most effective measures to prevent the introduction of yellow fever into New Orleans, or any other port of the Gulf of Mexico. It is of vital importance to each State in the South.

Dr. W. H. Sanders, health officer of Alabama, presented a paper on "Public Health," how to protect it.

The paper of Dr. Robert Fulton, president of the Mississippi Valley Association, on "His Duties and Responsibilities," was not read, but was ordered spread on the records.

The report of the Committee on Quarantine, presented by Congressman John Sharp Williams, recommended the Federal control of foreign and maritime quarantine and the control of interstate quarantine. The resolution was adopted by a vote of 10 to 2. The Federal government, this report was adopted after brief discussion.

The conference then took a recess until 6 o'clock and started for Culpeper Park.

Fourteen Southern States to-day through their Governors, senators, congressmen and other representatives to the relations made them wishes known to the States to the Federal government in the matters of quarantine and immigration. After a discussion of two days the southern conference on quarantine and immigration ignored the construction of the doctrine of States rights, which it was sought to apply to the questions at issue. Congressman John Sharp Williams, as chairman of the Quarantine Committee which formulated the resolution upon that branch of the conference work, presented a report which was adopted with but one dissenting vote, that of Senator Mallory, of Florida.

The resolution requests Congress to enact a law whereby coast, maritime and

national frontier quarantine shall be placed exclusively under the control and jurisdiction of the United States government, and that matters of interstate quarantine shall be placed under the control and jurisdiction of the United States government.

Congressman E. J. Bowers, of Mississippi, chairman of the Immigration Committee, presented the report of that committee, which was adopted by the unanimous vote of the convention. The resolution declares that desirable immigration is needed in order to develop the resources of the South, and that all white persons who are willing to settle in the South should be encouraged and love the genius of our institutions, are wanted and would be welcomed. The resolutions also says:

"We repudiate and denounce as untrue any and all rumors and slanders that may have been circulated to the effect that the South is unfavorable to honest and industrious white immigrants."

The resolutions also proposed changes in immigration laws for the purpose of excluding undesirable classes and recommending the establishment of immigration bureaus in the Southern States."

Governor Montague Speaks.
On the motion of Governor Glenn, of North Carolina, the officers of the convention were instructed to agree on a time and place for a future meeting of the conference with the interest that it shall be made of annual recurrence.

Governor Montague, of Virginia, made an address at a luncheon served at Port Ogithorpe.

Judge Mason's Illness.
(Special to The Times-Dispatch.)

COMON, VA., November 10.—Dr. Michael W. Miner of this place is attending physician of Judge John E. Mason, who has been ill at his home here for several weeks, said to-day, "that Judge Mason's condition is improved, but it is not true that he is well enough to attend to business. The judge needs absolute rest, and must have at least six or eight weeks longer. If the members of the bar on Judge Mason's judicial circuit will aid him in procuring this needed rest as they can do, such aid by them would hasten his recovery, and should enable him to return to them and his work in better condition than for several years." Further questioned, Dr. Miner said, with emphasis, "Judge Mason must have perfect rest from all world, both in his office and on the bench, and if the lawyers of his circuit will realize the importance of it, they can certainly render him very material aid in this direction."

Elks' Minstrel Show.
(Special to The Times-Dispatch.)

PETERSBURG, VA., November 10.—Petersburg Lodge of Elks gave a big minstrel show at the Madison Hotel to-night under the direction of C. George Nunn. A big audience approving the success of the home taste with many encore.

Blank's Velvet Lot.
(Special to The Times-Dispatch.)

It is a harmless preparation that completely obliterates all facial blemishes. After a few applications of Velvet Lot the skin becomes soft, clear and velvety. It contains ingredients that are endorsed by doctors and experts, and is as harmless to the skin and remove freckles, pimples, blackheads, wrinkles and all disfiguring eruptions.

Price 15c and 25c per bottle. Prepared and Sold by

THREW HANDS IN AIR AND FELL DEAD

A Ship Chandler Files a Petition in Bankruptcy.

RICHMOND MAN CONVICTED

O. L. Shipp Proposes to Contest the Election of Kellam.

(Special to The Times-Dispatch.)
NOFOLK, Nov. 10.—Alexander Thompson, of Pinners Point, a colored stevedore, dropped dead from heart disease, aboard Captain John A. Levine's barge, S. Soudar, last night while the barge lay at Pinners Point, and a gang were discharging fertilizer material. All were at work when Thompson threw his hands in the air and fell dead.

Bankruptcy.

J. M. Jordan, a ship chandler, who has been in business here a long time, and was supposed to be as prosperous now as formerly, filed a petition in bankruptcy to-day for \$35,000 debts, and nominal assets, \$35,000.

Louis Goodman, an escaped convict, his son, William, and Jim Kelly, all negroes, were sentenced to the penitentiary for stealing brass from the Norfolk and Southern Railway.

Richmond Man Convicted.

William Gordon, alias Gibbons or Giddens, a young man, who says he is a member of a good family in Richmond, was convicted of petty larceny here to-day and sent to jail for live months in addition to the one month he has spent in jail. He was convicted of stealing three overcoats, valued at \$25. He was convicted in the Police Court to-day and on appeal in the Corporation Court to-day.

He is supposed to be addicted to the drug habit. He offered no excuse for stealing, and there was practically no defense.

Contest in Princess Anne.

O. L. Shipp, of Princess Anne county, has engaged attorneys and is preparing to contest the election of A. E. Kellam, Republican, to the office of clerk of the County Court. The votes were canvassed yesterday with the result of giving the certificate to Kellam by a majority of five votes. Mr. Kellam passed through here to-day, going to the Methodist Conference and during an interview said:

"In the registration of 1902-1903 there were only 21 colored registered voters, and by death, removal from the county and other causes there are now less than 200 voters in the county. Of that number I don't think I got 100 votes. I understand the negro vote, and I understand the registration of 1902-1903 there were only 21 colored registered voters, and by death, removal from the county and other causes there are now less than 200 voters in the county.
